Escort MPA-TS SEMI AUTO

Serious. Solid. Impact.

Escort Fast Loading System

Escort Fast Loading System enables faster and easier loading into the magazine with one hand in the reliable double bar system. Escort's patented Fast Loading System provides faster loading of shot shells into the magazine without changing the aiming position. It also unlocks bolt which is locked at the rear. Both the carrier and fast loading button are hard chrome plated for longer life and maximum corrosion resistance. Fast Loading System is standard on all Escort semi auto shotguns.

Picatinny rail and ghost ring fiber optic rear sight.

Adjustable fiber optic front sight and flash suppressor.

Muzzle cap included.

Flash Suppressor included.

Door buster is optional.

Elevation adjustable cheek piece.

Hatsan design telescopic stock. Stock can be shortened by 10cm (4").

Magazine Cut-Off

By pressing this button, you can retain shells in the magazine and can eject a shell from the chamber without feeding another one from the magazine.

Stock can be removed easily for use with pistol grip only.
